NP420

Grooved Sediment Filter Kit with Siliphos Scale Inhibitor

Residential/Commercial Filtration Applications

Standard Features

- Manufactured in China
- Compatible with the Aqua-Pure® AP420, and also fits the AP11T, AP101T, AP141T, AP102T, HF-360 and other housings that accept 2-1/2" to 3" OD x 9-7/8" L cartridges
- Grooves create increased surface area for longer cartridge life and high dirt-holding capacity
- Provides excellent prefiltration in reverse osmosis systems, UV systems, and beverage filtration systems
- Filters for particulates, sediment, dirt, rust and scale
- Siliphos spheres in netting allow for more contact time to inhibit scale
- Kit includes: SDG-25-1005 Sediment Grooved Cartridge, netting, and siliphos spheres

Applications

- Beverages
- Electronics
- Fine Chemicals
- Plating Solutions
- Potable Water
- Prefiltration for Reverse Osmosis Systems

Tested and certified by NSF International against NSF/ANSI Standard 42 for material safety only

Product Specifications

Filter Media

Polypropylene, Siliphos

Micron Rating (Nominal)

5 microns

Dimensions

2-1/2" diameter x 9-7/8"

Cartridge Style

Drop-In

Operating Temperature

40°F to 145°F (4.4°C to 62.8°C)

Maximum Flow Rate

5 gpm

WARNING:

Do not use with water that is microbiologically unsafe or of unknown quality without adequate disinfection before or after the system.
